CESAR MAMANI

SUMMARY:

In this week I felt better than others days, I found relaxing to practice meditation, don't use cell phone before to sleep was helpful for me and I really understand a lot of concepts like STA, Poly, VOD, and others.

- **Date:** Monday, May 29
- **Class:** We saw the overview of the topics in the month, like some patterns and the relationship between principles, structure and code. I liked the material, but I would like pdfs for us to check at home.
- **TM Program:** In the morning when I do the meditation I felt comfortable and clean my mind I'm not sure if I slept but I only heard how the people were standing up and he already finished the meditation, but I got energy in the Afternoon meditation was relaxing, somethings during the TM I listened noise, but I was okay.
- **Schedule:** I was in bed by 11:30 pm, but I slept 12.30 because I can't sleep.

- **Date:** Tuesday, May 30
- **Class:** We saw the poly, Liskov Substitution Principles and some concepts like P2C, P2I, was a little confuse all the terms when we started, but latter I understood better.
- **TM Program:** In the midday meditation I feel sometimes like touches of electricity in my head at first, after that I felt good, in the afternoon meditation it made me feel a little sleepy at first, but then with energy.
- **Schedule:** I was in bed by 10:10 pm But I slept 12.01 am, I tried to sleep more early but Its difficult to get sleep.

- **Date:** Wednesday, May 31
- **Class:** We saw the steps of the refactor like, Partition, extract, name, bind and the pattern design.
- **TM Program:** It was interesting the relationship between the super (Wholeness) and the subType (Part), So about the Unify field.
- **Schedule:** I was in bed by 10:00pm, but I slept 10:30 aproximatly before to sleep I didn't use the cellphone.

- **Date:** Thursday, June 1
- **Class:** The review of Pattern Observer, and check new patterns like facade, strategy, and template, strategy was a new concept for me, how is the relationship between the concept and strategies.
- **TM Program:** I saw how the strategy is same our components that each them have a fuction in our coinceiencess
- **Schedule:** I was in bed by 10:00pm but I slept 10:20 pm, and find that this schedule is more comfortable as I adjust to it.

- **Date:** Friday, June 2
- **Class:** The overview of the topics in the month, like some patterns and we saw the relationship between principles, structure and code.
- **TM Program:** How all the entities in the universe and the corresponding actions has a unified source.
- **Schedule:** I was in bed by 10:00 but I slept 1:20 am, I didn't use my cellphone or something like that.

- **Date:** Saturday, June 3
- **Class:** We saw the iterator traversal external, internal and Selective external,internal.
- **TM Program:**
- **Schedule:** I was in bed by 10:00 pm and Slept 10:06 pm, I was tired.
